

## Job shadowing program

Hosting organization: NCDIEL

**Day 1:** arrival of participants

Welcome to Skopje and NCDIEL- short introductory programme with some cultural and historical aspects of the city

**Day 2:** Job shadowing at the faculty of mechanical engineering (tour of the campus)

**Day 3:** Job shadowing + cultural visit

**Day 4 :** Training on entrepreneurship in VET

Green innovation in Vocational Education and Training (VET) refers to the incorporation of environmentally sustainable practices, technologies, and skills into vocational education programs. The aim is to equip individuals with the knowledge and skills necessary to contribute to a more sustainable and eco-friendly economy. Green innovation in VET is crucial as it addresses pressing environmental challenges, such as climate change, resource depletion, and pollution, by fostering a skilled workforce capable of implementing and supporting sustainable solutions.

**Day 5:** Training on green innovation in VET

Entrepreneurial teaching in Vocational Education and Training (VET) is an approach that aims to foster an entrepreneurial mindset and skillset among students. It encourages students to develop an entrepreneurial outlook and equips them with the knowledge and abilities to create and manage their businesses, start-ups, or innovative projects within their vocational fields. This approach not only prepares students to be job seekers but also empowers them to be job creators and innovative problem solvers.

**Day 6:** Reflection on new experiences

**Day 7:** Departure day
